To celebrate the 15th anniversary of PALINCKX, Les Disques VICTO is releasing «IT'S FRONTAL DOG» their 10th recording. In 1983 Jacques and Bert PALINCKX, residing in Tilburg, located in the south of the Netherlands, founded their first group. In 1997 PALINCKX started with a new line-up and a new program. With the introduction of voice and lyrics and the compact sound of guitar, bass and drums, the music of PALINCKX became more direct, flexible and clear.

What stays in the music is an unrestrained urge to improvise and have fun. «IT'S FRONTAL DOG» is the proof of that new direction.

PALINCKX makes music that defies traditional categories like rock, jazz, improvised and contemporary composed music. PALINCKX wants to astonish, confuse, move, and make you think.

PALINCKX plays hard-edge collages, slap-stick effects, psychedelica, musical ready-mades, noise, carrying melodies and abstract sound explorations.

Every performance offers a unique version of the composition. Improvisations and composed fragments are perpetually played into an unexpectedly new context and order.

Of their performance at the Victoriaville Festival in 1997, JOSEF WOODARD of JAZZIZ Magazine said: «After midnight, capping off a full day's provocations, was the fun-loving, post-punk, post-Beefheart frenzy of the European rock band PALINCKX, a surprise hit of the Festival.»
